

Design & Technology Ambassador Interviews

What is design & technology?

We design things and then we make them. (KN)

Things that we draw or design, make and then decorate. (TA)

A subject where you have to show what you're going to do before you make it. (HE)

We create products - some have circuits that help it to move or light up. (JS)

What skills have you learned in your projects?

Cutting skills, gluing and designing skills (KN)

Making glue-tabs (RB)

Learning how to make things stronger (TA)

Solving problems if something goes wrong (TA)

To be patient and to take your time. (HN)

Scientific knowledge; how to strip wires safely (JS)

Everyday skills to help us when we get older.

Cutting skills, how to add flavour (JS)

Developing patience and developing hand eye coordination when sewing (JS)

Why do we learn about design & technology?

To teach us how to make things for our jobs (TA)

Teaches us skills to make things and helps us to be creative (RB)

To start to learn to cook (KN)

To learn skills to be an engineer or a mechanic (HE)

To learn everyday skills for changing your house for when we are older. (HE)

To prepare us for the future (HE)

To help you to be what you want to be (HE)

Do you know any famous designers?

Mark Robber - Youtube - makes electronics (HE)

Elon Musk - Car

Chef Gordon Ramsay (JG)

What would you like to design and make in the future?

Design and making dresses (KN)

Design Christmas tree decorations (TA)

Make different types of pizzas (TA)

I'd like to be fashion designer. (RB) Needs to develop cutting and measuring skills for this job.

Design lights for showcase stalls (HE)

Make chocolates (HE)

To make simple meals that I can do at home like making an omelette (LF)

I'd like to be an interior designer (JG)
